

#### SAFETY & WARNINGS

WARNING: DO NOT attempt to vape concentrated flavor without diluting it with vegetable glycerin and propylene glycol. DO NOT use any Flavorah flavor except for its intended use as a flavoring.

WARNING: Exposure may result in irritation of the eyes, skin, nose, throat and respiratory tract. In case of contact with skin, wash immediately and thoroughly with soap and water. In case of contact with eyes, rinse immediately and thoroughly with water and seek full medical advice immediately.

WARNING: This product may contain compounds that may be hazardous to your health. There is no FDA approved flavoring for inhalation.

We do not add Diacetyl or Acetyl Propionyl (a/k/a 2,3-pentanedione) to any of our products, but diacetyl and/or acetyl propionyl may naturally occur in the flavor extraction process in some of our products. Acetoin is used in the compounding of some of our products.

The inhalation of flavoring may expose you to hazardous chemicals, toxins, and nanoparticles, including diacetyl, acetyl propionyl and/or acetoin, which have been associated with permanent lung injury and disease, including the lung disease bronchiolitis obliterans. Exposure to the aerosol can trigger, aggravate, and exacerbate various adverse health effects including but not limited to cancer, carcinoma, addiction, birth defects, heart disease, arteriosclerosis, liver and kidney disease, abnormal conditions, disorders, symptoms, and illness of the human body.

Exposure may result in irritation of the eyes, skin, nose, throat and respiratory tract. In case of contact with skin, wash immediately and thoroughly with soap and water. In case of contact with eyes, rinse immediately and thoroughly with water and seek full medical advice immediately.

STATE OF CALIFORNIA WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

*The Flavoring  
for eJuice*

Give our flavors a try in a new ejuice formula, or to update a recipe that needs to be distinct and flawless.

Flavorah is *the* Flavoring for eJuice

- Food-grade flavorings are compounded in an FDA inspected facility.
- No added Diacetyl\*
- No added sweeteners or colors
- Made in the USA

More information, including 3rd party diketone analysis at: [flavorah.com/safety](http://flavorah.com/safety)

Unlike multipurpose flavorings that were formulated for candy and baking, Flavorah's uniquely crafted flavor notes and high potency make it the real choice for flavoring ejuice.

### Bigger Clouds

Because Flavorah's usage rate is 2-5%, you can design max VG recipes without sacrificing flavor potency.

### Higher Quality

Flavorah is built from the ground up with flavor profiles for ejuice, yet still manufactured at the highest food grade standards. You can trust that Flavorah flavorings are going to taste right, mix well and raise the quality level of your craft ejuice.

### Better Value

High concentration levels means more juice per dollar rather than highly diluted, multipurpose flavorings that are borrowed from the candy and beverage industry.
